Professional Summary

Android Developer (**Kotlin + Jetpack Compose**) focused on clean architecture (**MVVM/Clean**), DI with **Hilt**, REST API consumption with **Retrofit/OkHttp**, state management with **Flow/StateFlow** and persistence with **Room**. Knowledge in **testing (JUnit/MockK/Compose UI)**, **CI/CD** and observability (**Crashlytics/Analytics**).

Additional experience as a frontend developer with **React, HTML/CSS, JavaScript** and **PHP** for backend integrations. Focus on responsive layout and performance best practices. Use of **AI-assisted development** (GitHub Copilot, ChatGPT, Claude) to accelerate workflows while maintaining quality standards.

Work Experience

Android Developer

March 2025 - Present **INDEPENDENT DEVELOPER**

Android development with **Kotlin and Jetpack Compose**. Independent projects using **Firebase, MVVM + Clean** architecture, **Dagger Hilt** for DI, **Retrofit** for REST API consumption and **Compose Navigation**. Featured projects:

- **RickAndMortyDB (2025)**: Characters, episodes and locations app with **Paging3** for efficient loading, real-time reactive search, dynamic filters (status, gender, location) and interconnected type-safe navigation. Multi-language support and **Firebase Analytics/Crashlytics**. Stack: **Jetpack Compose, MVVM + Clean, Hilt, Retrofit, Coroutines + Flow, Material 3**. [GitHub](#)
- **Pizarra (2023 - Final Degree Project)**: Hierarchical task manager (Groups → Tasks) with automatic sorting by priority, visual indicators based on deadline proximity and swipe-to-delete with undo. **Firebase Auth** for session persistence and **Firestore** for online synchronization. Stack: **Kotlin, XML, Navigator, Firebase (Analytics + Auth + Firestore)**. [GitHub](#)

Multiplatform Developer

March 2023 - June 2023 **ACRONO S.I.**

- Web development with **PHP** and **CakePHP**: views, controllers, validations; using the framework's ORM and helpers.
- **Pixel-perfect** conversion from PDF designs to **HTML/CSS**.
- Support for mobile apps with **Java** and **XML**: UI maintenance, navigation, and component adaptation.
- **Agile/Scrum** teamwork: dailies, planning, and reviews; version control with **Git**.

IT Systems Technician

March 2021 - June 2021 **SOFITEC S.A.**

- Assembly and maintenance of equipment: OS installation, drivers, and component replacement.
- **Helpdesk** L1/L2 support: troubleshooting, user assistance, and ticket handling.
- **Active Directory** administration: user/group provisioning.
- Private network administration: firewall configuration, port management, switch backups, cabling, and connectivity troubleshooting.

Skills / Tech Stack

- **Programming Languages**: Java, Kotlin, Python, PHP, HTML, CSS, Javascript, SQL, PLSQL, PowerShell, Shellscript
- **Mobile**: Kotlin multiplatform, Compose multiplatform, Jetpack Compose, Room, Retrofit, Material 3, MVVM, Clean Architecture, SOLID and DRY Principles, Flow, StateFlow, SharedFlow, Dagger Hilt, Koin, Compose Navigation, Testing
- **Tools**: Git, VSCode, Android Studio, IntelliJ IDEA, PyCharm, PHPStorm, Docker, Figma
- **AI Development**: GitHub Copilot, ChatGPT, Stitch (design, UI), Claude Code CLI (code generation, refactoring, debugging, documentation)
- **Frameworks**: Firebase, Spring Boot, Hibernate, React, CakePHP, Django
- **Databases**: MySQL, MariaDB, MongoDB, PostgreSQL

Soft Skills

- Teamwork
- Communication
- Creativity
- Problem-solving
- Adaptability
- Proactivity
- Time management

Languages

- Spanish: Native
- English: Intermediate - B2

Certifications

- BigSchool (October 2025)
Introduction to AI-Assisted Development Course
- OpenWebinars (April 2024)
WordPress Course, Website Building
WordPress Course, Installation and Configuration
- OpenWebinars (April 2020)
Arduino Course

[View certificates](#)

Other

- Category B driving license (own vehicle)
- FULL availability
- Availability TO TRAVEL
- IMMEDIATE start

Education

Specialization Course in Cybersecurity

October 2023 - May 2024
Advanced cybersecurity training: system hardening, SIEM analysis, digital forensics, ethical hacking, and incident response. Use of Elastic Stack, Wazuh, and Suricata for monitoring and security analytics.

Higher National Diploma in Multiplatform Application Development

September 2021 - May 2023
Training in cross-platform software development (web, mobile, and desktop). Hands-on projects in Java, Kotlin, Python, PHP, SQL, and PL/SQL.

Intermediate Vocational Training in Microcomputer Systems and Networks

September 2019 - May 2021
Assembly, configuration, and maintenance of equipment and networks. Basic systems administration, information security, and technical support.

Non-IT Experience

Logistics in the Netherlands

August 2024 - April 2025 **FM GROUP**
- Warehouse operations: receiving, sorting, and order preparation (picking/packing).
- Operation of pallet jacks and lifts; compliance with safety standards and signage.
- Shelving organization and basic inventory control to minimize shipping errors.
- Support and basic setup of equipment and mobile devices used in the logistics workflow.

Food Delivery Rider

November 2022 - August 2023 **GUIALTO**
- Route planning and delivery on 50/125cc scooters, prioritizing safety and timings.
- Customer service at delivery, incident resolution, and payment/confirmation handling.
