## Professional Summary

Android Developer (**Kotlin + Jetpack Compose**) focused on clean architecture (**MVVM/Clean**), DI with **Hilt**, and REST API consumption using **Retrofit/OkHttp**. Experienced building declarative UIs, managing state with **Flow/StateFlow**, and persistence with **Room**. Committed to quality: **testing (JUnit/MockK/Compose UI)**, **CI/CD**, and observability (**Crashlytics/Analytics**).

Also experienced as a frontend developer with **React, HTML, CSS**, and **JavaScript (Vanilla)**, as well as **PHP** for lightweight back-end integrations. Focused on responsive, accessible layouts and UI performance best practices.

Additionally, I leverage **AI-assisted development** to accelerate delivery while maintaining quality.

## Work Experience

### Android Developer

March 2025 - Present **FREELANCE**

Android development with **Kotlin and Jetpack Compose**. Freelance projects using **Firestore** and modern architecture (**MVVM + Clean**), **Dagger Hilt** for dependency injection, **Retrofit** for REST API consumption, and navigation with **Compose Navigation**. Selected projects:

- **RickAndMortyDB**: App that brings together all characters, episodes, and locations from the TV series Rick and Morty. Built with modern technologies such as **Jetpack Compose, MVVM + Clean, Hilt, Retrofit, Navigation, and Firestore**. Source code available on GitHub: <https://github.com/galvezsh/RickAndMortyDB>

### Multiplatform Developer

March 2023 - June 2023 **ACRONO S.I.**

- Web development with **PHP** and **CakePHP**: views, controllers, validations; using the framework's ORM and helpers.
- **Pixel-perfect** conversion from PDF designs to **HTML/CSS**.
- Support for mobile apps with **Java** and **XML**: UI maintenance, navigation, and component adaptation.
- **Agile/Scrum** teamwork: dailies, planning, and reviews; version control with **Git**.

### IT Systems Technician

March 2021 - June 2021 **SOFITEC S.A.**

- Assembly and maintenance of equipment: OS installation, drivers, and component replacement.
- **Helpdesk** L1/L2 support: troubleshooting, user assistance, and ticket handling.
- **Active Directory** administration: user/group provisioning.
- Private network administration: firewall configuration, port management, switch backups, cabling, and connectivity troubleshooting.

## Skills / Tech Stack

- **Programming languages**: Java, Kotlin, Python, PHP, HTML, CSS, JavaScript, SQL, PL/SQL, PowerShell, Shell Script
- **Mobile**: Kotlin Multiplatform, Compose Multiplatform, Jetpack Compose, Room, Retrofit, Material 3, MVVM, Clean Architecture, SOLID/DRY, Flow, StateFlow, SharedFlow, Dagger Hilt, Koin, Compose Navigation, Testing
- **Tools**: Git, VS Code, Android Studio, IntelliJ IDEA, PyCharm, PHPStorm, Docker, Figma
- **AI tools**: ChatGPT, Gemini, GitHub Copilot, NotebookLM, Firebase Studio, n8n
- **Frameworks**: Firestore, Spring Boot, Hibernate, React, CakePHP, Django
- **Databases**: MySQL, MariaDB, MongoDB, PostgreSQL

Soft Skills

- Teamwork
- Communication
- Creativity
- Problem-solving
- Adaptability
- Proactivity
- Time management

Languages

**Spanish:** Native  
**English:** Intermediate - B2

Other

Category B driving license (own vehicle)  
**FULL** availability  
Availability **TO TRAVEL**  
**IMMEDIATE** start

Education

Specialization Course in Cybersecurity

October 2023 - May 2024  
Advanced cybersecurity training: system hardening, SIEM analysis, digital forensics, ethical hacking, and incident response. Use of Elastic Stack, Wazuh, and Suricata for monitoring and security analytics.

Higher National Diploma in Multiplatform Application Development

September 2021 - May 2023  
Training in cross-platform software development (web, mobile, and desktop). Hands-on projects in Java, Kotlin, Python, PHP, SQL, and PL/SQL.

Intermediate Vocational Training in Microcomputer Systems and Networks

September 2019 - May 2021  
Assembly, configuration, and maintenance of equipment and networks. Basic systems administration, information security, and technical support.

Non-IT Experience

Logistics in the Netherlands

August 2024 - April 2025 **FM GROUP**  
- Warehouse operations: receiving, sorting, and order preparation (picking/packing).  
- Operation of pallet jacks and lifts; compliance with safety standards and signage.  
- Shelving organization and basic inventory control to minimize shipping errors.  
- Support and basic setup of equipment and mobile devices used in the logistics workflow.

Food Delivery Rider

November 2022 - August 2023 **GUALTO**  
- Route planning and delivery on 50/125cc scooters, prioritizing safety and timings.  
- Customer service at delivery, incident resolution, and payment/confirmation handling.
